2016 School Fees

Materials and Services Fees

School fees are set in conjunction with guidance from the South Australian Department for Education and Children’s Development. Stationery, textbooks, art materials, library and computing resources are provided for all students. Payment of school fees for each child is essential in ensuring the provision of a high quality learning program in our school.

The Governing Council sets the school fee in consultation with the school community each year. This year it has been set at $250 per child.

If you are a HealthCare card holder or low income earner, you may qualify for a School Card reduction. Please see the Finance Officer for more information. School Card Application Forms are sent with invoices at the beginning of each year. Those that are eligible will be notified.
